THE STATE OF BEING UNITED OR JOINED AS A WHOLE

Four years ago a life long dream became reality. A desire to offer sport martial artists something more, to make competing an experience that was both fair and fun, to showcase our sport and reward talent and hard work; all of this and much more led to the very first Unity Games.

In 2016 the Unity Games returns for it's 4th year and this year we are raising the level to a World Games. On 18th September competitors and spectators alike will once again experience what makes the Unity World Games so much more than just another tournament as we see who will become the very first Unity World Champions.

Spreading out it's wings to encompass ALL martial artists regardless of association, club or style. A genuinely open tournament with fantastic facilities and awards, fair and transparent judging and a unique Night Show the Unity World Games is all about recognising the amazing amount of talent in the sports martial arts world.

THE GAME HAS CHANGED

Word of the Unity experience continues to spread. Since the very first games we have welcomed competitors from around the world and the number of overseas competitors continues to grow year on year. Homegrown UK talent also continues to emerge and grow with new and experienced competitors coming together to ensure a fantastic future for the sport. Truly a World Games.

The circles are complete; they encompass the Unity mission statement, the inclusivity of the games, the competitors from around the world. They represent a hope that all competitors, their families, coaches, judges, school & academy owners can join together for a single day of celebration of talent, hard work and the values of the martial arts.

Always listening to feedback and advice, always evolving and innovating, pushing boundaries and investing in the future has lead us to the Unity World Games of 2016: a five star, world class tournament.

KATA

The Unity World Games has become renowned for the breadth and depth of it's Forms & Kata, Tricking and spectacular Grand Championships.

Offering more divisions than any other Sports Martial Arts tournament from traditional Kata, through creative divisions to the explosive showmanship of the musical divisions there is something for everyone.

Unity offers separate divisions for Boys & Girls, beginner and advanced sections and a large number of age splits meaning each competitor has the opportunity to compete against similar ages and abilities.

For beginners and less experienced competitors we offer separate 'A' divisions. This gives these competitors the opportunity to take part in and experience a top quality tournament without feeling intimidated or pressured by more experienced competitors. The rules are slightly different for these divisions to make sure they are for genuine beginners.

Division winners
will receive
Unity World Titles
for the first time

The winners of our 'AA' advanced divisions are rewarded with the opportunity to take part in run-offs with the winners of these going forward to contest the coveted Grand Championships as part of our spectacular night show where the winners receive a superb trophy and prize money.

Unity prides itself on the fairness of it's judging.

We select our judges from the very best the sport has to offer and from a range of styles and backgrounds.

Each mat will have a mix of judges with a skill set to match the genre they are judging to ensure that the competitor is marked solely on their performance on the day with no bias given due to team or organisation.

Unity World Games

Some of the most prolific new breed fighters make the Unity Games a pivotal event every year

POINT FIGHTING

Point Fighting at Unity has come of age with some explosive teams & athletes fighting for honours in all divisions. The team finals on stage were electrifying.

Since the very beginning in Unity 1 we have offered all 16+ and Black Belt Point Fighters the opportunity to fight over 2 x 1.5 min rounds and this continues for Unity 4. More mat time, more value for money, more valuable experience.

From the feedback we have received this extra mat time is greatly appreciated as one bad round does not necessarily mean the end of the tournament for the fighter.

Fighters feature on the Night Show too with the Team Finals for juniors, and the adult TAG team final all being contested on the main stage in front of the packed audience.

Division winners will receive Unity World Titles for the first time

THE GAME HAS CHANGED

At Unity rewarding competitors with the very best awards and prizes is part of the ethos of the Unity brand. This year we have expanded the divisions even more to include new genres for teams, traditional and more for the fighting competitors including Kumite. There are now over 200 divisions making Unity one of the largest tournaments of it's kind.

Forms, Kata, Patterns & Weapons Divisions

NEW

"A" Divisions BEGINNER

'A' beginner divisions are for more inexperienced or new competitors with a less advanced ability level. They are specifically designed to ensure that newer competitors have a chance to compete against other athletes of a similar ability and without feeling overwhelmed by the more experienced competitors. These divisions have their own set of very specific rules which detail what is and isn't allowed in relation to gymnastic moves etc. Please ensure that you read these rules carefully and do not enter these divisions if you/your student performs moves in their form which are not allowed.

We would ask all competitors and their coaches/parents to use their own integrity to decide if they/their student should be in these divisions or whether their ability level means that they should enter the 'AA' advanced divisions instead. Time served/belt colour is not necessarily the only indication of ability level. Unity officials reserve the right to move up to the 'AA' divisions any athletes whom they assess as too advanced for the 'A' divisions.

Definition >> "Hardstyle" Divisions allow for additional breathing and power techniques.
